

INDUSTRIAL DAMPERS

FABER
Burner Company

Did you know Faber Burner Company makes a wide range of high-quality dampers to meet your industrial needs? Whether controlling high-temperature flue gas or process air, managing airflow, or ensuring proper combustion efficiency, Faber has you covered with dampers that are engineered to perform. Faber manufactures a wide variety of dampers fit for purpose, including single and multi-blade designs with round, rectangular, and high-temperature options. Our robust designs are innovative and reliable. At Faber, one size does not fit all – we tailor our solutions to meet the unique demands of your process.

With some of the best delivery times in the business, Faber maintains an extensive inventory of parts to serve your needs, and we leverage our expertise in custom engineering to assure rapid turnaround times without compromising quality. Faber's focus on excellence and our dedication to solving problems for customers across the globe have made us a trusted leader in our industry since 1926. Here is one case study among many.

Case Study #240026: Urgent Delivery of Custom Dampers

Not long ago, we received an emergency request for two (2) 48" actuated boiler outlet dampers. We responded immediately with detailed questions about the application and followed with a quote. Within days of receiving the order, we performed the necessary engineering and provided submittal drawings. Because Faber maintains an extensive inventory of stock parts (BURNERPARTSNOW.COM), we were able to ship the dampers 10 days after receipt of the order to a very satisfied customer.

Whatever your needs, Faber would love to help. The following line card will tell you a bit more about our products and services. Please reach out to us with the contact information given below. And thanks for reading.

Package Burners

The finest and most comprehensive combustion systems available for boilers, high temperature hot water generators, process furnaces and more.

Forefront Burners

Heavy-duty and user-friendly industrial gas burners for a vast array of applications that require heating capacities from 500,000 to 8,000,000 BTU/Hr.

Specialty Burners

Specialty burners to meet application-specific fuel-burning needs. Some examples include start-up burners, air heating, biogas guns, and waste gas guns.

LXE Burners

Modular industrial burners with unparalleled flexibility and performance. Heat inputs range from 10 to 60 MMBTU/Hr.

Igniters and Pilots

Gas, Oil or High Energy Spark. Faber Burner Company has a complete line of igniters that provide safe and reliable light off. 20,000 BTU/Hr to 20 MMBTU/Hr.

Oil Guns

Atomizers with capacities from 2.1 to 200 MMBTU/Hr. Firing conventional and alternative liquid fuels with either steam, air, or mechanical atomization.

Dampers

Faber offers industrial dampers for high-temperature air or flue gas: Single & Multi-Blade. Standard sizes are always in stock.

Control Systems

Faber supplies user-friendly comprehensive strategies for the optimal control of combustion equipment. From basic to custom-engineered state-of-the-art systems.

Pipe Rack Assemblies

Faber's engineered piping systems are designed to safely and accurately control the pressure and flow of any liquid or gas including conventional and alternative fuels, steam, and air.

Spare Burner Parts

We support what we build. Faber maintains one of the most extensive inventories in the combustion industry. Thousand of items are ready for immediate shipment.
